## RHEUMATISM

Physician Believes a Genuine Remedy  
For the Disease Has Been Found.  
Rheuma, the wonderful rheumatism remedy sold by Lee & Osgood and all druggists, gives quicker and more lasting relief than other remedies costing many times as much.  
Rheuma passes the deadly poisonous secretions into the bowels and kidneys, from which they are quickly thrown off in a natural, healthy way.  
Read what a reputable physician says about this remedy.  
"I have made the most careful investigation of the formula employed in the manufacture of rheuma, and I heartily recommend it as a remedy for all forms of rheumatism. I find Rheuma far in advance of the methods generally employed in the treatment of rheumatism, and altogether different in composition from the remedies usually prescribed."—Dr. Lyons.

This should give any sufferer from rheumatism confidence to try Rheuma.

Board of Aldermen Approve \$75 For Celebration Purposes.

At a special meeting of the board of aldermen that was scheduled to take place at 7.30 o'clock, Thursday evening, was called to order at 7.55 by Mayor Dunn. The first item on the agenda was the report of the committee on the resolution passed by the board of aldermen at its last meeting, to the effect that the city would reach their home town the early part of next week and that the city ought to do something in the matter. Before the matter was discussed to any extent Alderman Holbrook made a motion that all rights regarding the twenty-four hour notice be waived. This motion was carried.

The mayor then went on to state that some appropriation should be made and that he would suggest that the board as a whole act as the committee in regard to the affair. He also stated that he expected to receive notice of the exact time of the arrival of the boys at least twenty-four hours ahead which will give ample time to make the last preparations. It is thought that the city will be able to close down and allow their help to take part in the celebration. All of the organizations of the city will be asked to turn out for the parade.

Alderman Case made a motion whereby not over a sum to exceed \$75 should be appropriated for the celebration. The mayor was authorized to make arrangements with the band and all other necessary arrangements. The final details of the matter will be gone over at the regular meeting of the board next Monday evening. The meeting adjourned at 8.10.

## JEWETT CITY

Exhibit of Pupils' Garden Products,  
Handwork, Cooking, Etc., at River-  
side School—Grand Prize to be a  
Gift Rooster.

The Bulletin of twenty-five years ago today tells of the forecast for the coming winter, by the late Jonathan Niles who was then approaching 80 years of age. He was a native of Griswold and a weather prophet of no little note.

He always styled himself in the goosebarn class, although much of his proficiency was a result of the study of atmospheric conditions. The item says that Mr. Niles, after examining the corn husks where he had been at work for a nearby farmer and after noting the activity of the muskrats in building their houses so thick in Tadpole pond and high above the water, gave a prognostication of the winter 1911-2. His forecast came almost startlingly correct. Local weather experts today are basing their beliefs on the winter on the fact that the brooks and the swamps are already filled, which has been the case for years. Mr. Niles always contended that winter never "closed in" for good until brooks and swamps were full.

High Cost of Living.  
It has been figured by a woman in town that in a family of five the weekly consumption of flour, butter, milk and sugar cost \$1.00 more than for the same week of September. Jewett City sent a delegation numbering a dozen to the Brockton fair Thursday, most of them making the trip by automobile. O. F. Miller and Thomas McDermott went by train, via Boston.

Jays Coming Nearer.  
No less than a half dozen reports have been heard about the growing familiarity of the common blue-jay, surely to be reckoned among the handsomest of local birds. It was not for his voice everybody would be much pleased with his new habit of coming to and feeding in the trees, and in back yards only a few feet from dwelling houses. One saw one this week (an unheard of thing), feeding with his chickens inside a coop.

Mr. Jay is an early riser and when he gets his scream in action at dawn, Mr. Man sleeping nearby awakes and says things. Mr. Jay is not over 10, blue jays and crows keep well aloof from humans and their dwellings. Last winter during the common snow, crows, blue jays and starlings came within 25 feet of a house in town and held themselves in a fast loop of a piece of sweet nailed to a clothes line post.

Pupils' Exhibit at Riverside.  
A considerable number attended the exhibit of flowers, fruit and vegetables held at Riverside Grammar school. Besides these there are baskets, articles made with carpenter's tools, sofa pillow tops and embroidered flap-jacks, made by a small boy. Several judges have been selected and prizes will be awarded on all the articles shown. There are over one hundred exhibitors. The one who holds the greatest number of blue ribbons will be awarded the grand prize of a large rooster raised and presented by William MacNicol.

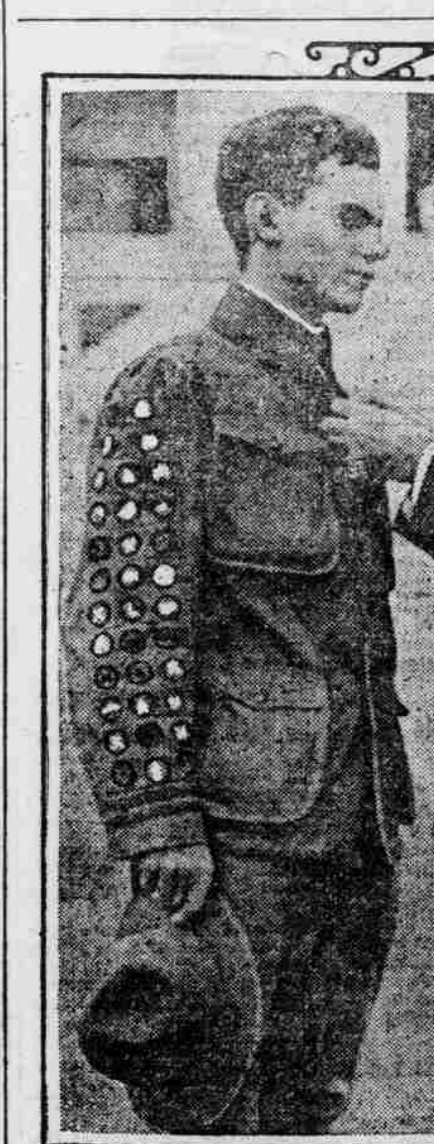

A LARGE AUTO TRUCK  
STRUCK BY HEAVY TROLLEY

Truck Was Turned Completely Over,  
but It Landed on Its Wheels.

Bridgeport, Conn., Oct. 5.—A large automobile truck owned in Waterbury was struck amidships this evening by a heavy trolley car while the truck was crossing Main street at Gilbert street. The truck was thrown completely over sideways and after a full revolution it landed on its wheels, with the motor still running but the clutch out. Fred Robinson, of Waterbury, the colored chauffeur, who was in a box on the machine, was around with the truck and when the commotion was over, found himself still in the hood, only slightly bruised. Almost the only damage done was to about \$500 worth of fruit that was scattered for about a block along the street.

Block Improved.  
Many improvements have taken place in the Kretzer block in the past few weeks. The store has recently been remodeled and the tenement on the next floor has been done away with and five nice offices with all improvements have been added. The old stairway on the outside of the building on the west side has been torn down which adds greatly to the appearance of the building and the entrance is from the east side. The telephone pole is to be removed, the stone step taken away, a fine plate glass put in the west side and a cement walk from Main street to reach to the Fidler block, which makes one of the up-to-date blocks in the village.

A NEW METHOD OF DRESSING PAINFUL WOUNDS.  
A Thin Layer of Perforated Celluloid Substituted for Lint.

London, Oct. 5.—Opinion among surgeons and nurses is practically unanimous in favor of the advantages of a new method of dressing large and painful wounds, whereby a thin layer of perforated celluloid is substituted for lint as the first covering for the raw wound. The plan was tried successfully first by Sir Almon Wright at St. Mary's hospital, Paddington, and now promises to become generally adopted.

The celluloid, first rendered soft and pliable by being soaked in a 20 per cent. solution of carbolic acid and then washed in a weak salt solution, is laid on the raw wound, the perforations being so numerous that it seems mostly holes. Fine lint soaked in a 1 per cent. solution of common salt in sterile water is then placed over the celluloid, after which firm bandages are applied. Owing to the celluloid, much firmer pressure can be used than with ordinary dressings.

One surgeon, explaining the advantages of the celluloid dressing, further said: "In many cases the healing of a large wound is actually retarded by the general body depression resulting from the pain caused in the dressing of it. Again, gauze bandages, when laid directly on the raw wound, must

inevitably, in the process of removal, tear away from their site certain of the tiny new cells which are formed by nature in effecting the cure. Every cell thus destroyed has to be remade and so healing is delayed."

ELIHU ROOT ADDRESSED  
MASS MEETING IN NEW YORK  
Warns Hearers of the Way in Which  
Wilson is Conducting Business.

New York, Oct. 5.—Elihu Root, at a mass meeting held here tonight under the auspices of the Republican club, declared that the question for the American people to decide in the present campaign is:

"Are they willing to have the serious and critical affairs in which their vital interest is concerned during the next four years conducted in the same way that the Mexican business has been conducted?"

Mr. Root, who, with former United States Senator Chauncey M. Depew, was greeted by an audience in which there were many women, began his address by saying that "the people of the United States have some serious business to be done by their government in the next four years, and the way in which it is done will be of vital importance to the country and to all of us in the country."

"Shall we engage Mr. Wilson, Mr. Bryan, Mr. McAdoo, Mr. Daniels and the rest of the despotic administration and a democratic congress to manage our affairs for the next four years?" he asked.

Mr. Root read his speech from manuscript. Mr. Depew followed him and

characterized President Wilson's speech at Shadow Lawn, N. J., last Saturday as "admirably phrased and adroitly and captivantly put," but added that "generalizations never will bear the acid test of facts."

Mr. Depew asserted that "while the republican party has been a party of construction when in power, the democratic party has always been a party of obstruction and destruction."
